

NEWS FROM THE BARKING - GOSPEL OAK RAIL USER GROUP 25 APRIL

ENGINEERING WORK SUNDAY 27 APRIL

Buses replace trains between Barking and South Tottenham until 12:00 on Sunday 27 April. For details of the rail replacement bus service (pages 3 & 4) and other planned engineering work on Barking - Gospel Oak and connecting lines (pages 1 & 2) see the attached pdf file. BGORUG is grateful to London Overground for improving the direction signage to the rail replacement bus stops at Forest Road (Blackhorse Road station) and South Grove (Walthamstow Queen's Road station). BGORUG continues to provide direction signage to the rail replacement bus stops in Selbourne Road (Walthamstow Central) and rail replacement bus timetables to bus stops at Barking, Walthamstow and Crouch Hill.

PLANNED STRIKE ACTION ON LONDON UNDERGROUND 28-30 APRIL

Barking - Gospel Oak services are expected to be grossly overcrowded during peak times and London Overground are will operating crowd control and queuing measures at stations. BLACKHORSE ROAD is operated by London Underground and is expected to be open until 23:00 Mon - Wed and to open at 07:00 on Tues - Wed. London Overground trains WILL NOT CALL if the station is closed. The Victoria Line is planned to operate every 5 mins between Seven Sisters and Victoria with possible extension to Brixton. Seven Sisters station is a short walk from South Tottenham station. Passengers should allow a lot of extra time for their journeys and try to avoid travelling at all, especially during the morning and evening peaks. There is a link to the TfL website on our links page. Join our 'Have your say' message board (<http://www.barking-gospeloak.org.uk/>) and keep your fellow passengers up to date with the latest events/disruptions on the Barking - Gospel Oak Line from your PC or mobile device.

SUMMER TIMETABLE

The Summer National Rail timetable commences on Sunday 18 May. Copies of the new London Overground timetable booklets are now available from stations including Blackhorse Road.

ESCALATOR RENEWAL AT BLACKHORSE ROAD

There will be no down escalator service to the Victoria Line at Blackhorse Road until June.

LEYTONSTONE HIGH ROAD

Ticket gates have been installed here and may be operational already.

LEYTON MIDLAND ROAD

BGORUG is grateful to London Overground for reinstating the glazing in the two original passenger platform shelters on a trial basis. The Midland Road entrance to this station was closed permanently on Tuesday 22 April and the new ticket gates at the High Road entrance were commissioned on Thursday 24 April. An additional ticket vending machine has also been provided.

WALTHAMSTOW QUEEN'S ROAD

The ticket vending machine for the new Edison Close entrance was finally delivered on Wednesday 23 April and the signage for the entrance was installed on Tuesday 22 April. Waltham Forest Council has installed CCTV in Edison Close, so London Overground should be able to open this long awaited station entrance in the VERY near future! There is still no sign of work starting on the equally long awaited footpath, to be named Ray Dudley Way, to link Edison Close with Walthamstow Central. BGORUG is grateful to Waltham Forest Council for agreeing to provide pedestrian direction signage between Walthamstow Queen's Road station and Walthamstow Central and Walthamstow Queen's Road station and the High Street at Willow Walk. The Council has also agreed to lobby Transport for London to agree to BGORUG's proposal to add the words "Alight here for Walthamstow Town Centre" to signs on the station platforms.

BLACKHORSE ROAD

BGORUG is grateful to the London Underground station manager, Mike Donnithorne, for providing a train departures indicator in the Ticket Hall and additional platform signs. However we are disappointed that the Department for Transport funded 'Access For All' scheme to the Overground platforms has been shelved.

SOUTH TOTTENHAM

This is the site of the only other ticket gating and 'Access For All' schemes on the line and London Overground insist that these works are still going ahead in spite of there being no sign of any work taking place on the ground.

UPPER HOLLOWAY

At last the much needed ticket vending machine has been installed at the down side entrance.

GOSPEL OAK

A recent surprise addition here was a brand new passenger shelter on the Barking platform, WITH INTERIOR LIGHTING!

ANNUAL GENERAL MEETING

This has been postponed due to the strike on London Underground. The new date will be confirmed as soon as we have confirmation from the venue.
